The Rules & Regulations Committee has been meeting to begin updating our SLLOA rules and regulations for the 2017 year. They will be addressing the rules for registration of motorized watercraft, general boating, water skiing and fishing along with other assignments given to them by the Board and/or recommendations you may have.

The committee is composed of Michelle Rand, Ken Vorthmann, Bill Lewis, and Ron Robertson and chaired by Rob Daly (not Dailey). Their plan is to announce the meeting date when they will be addressing each issue. They invite you to attend any of those meetings as they welcome your input. They will be posting their meeting dates on Facebook and in the monthly newsletter. In the meantime, please contact any of the committee members with any issues or concerns that you would like the committee to address.

The committee will make their recommendations for the updates to the Board for their approval but final approval will not occur until our annual meeting next year when the changes will be voted on by all the members of the SLLOA.
